Testimonial Disclaimer

These examples are not typical.

Because of the variables associated with defining success in online marketing, it is impossible to accurately state what a person may or may not achieve.

Success is determined on an individual basis and is dependent on a variety of factors including a willingness to take action and carry out ideas based on what is taught, prevailing market conditions, target market selection, and the amount of hard work and effort an individual expends.

Similar to other types of marketing, our typical student should not expect to make any amount of money from the training the Company provides but should expect to receive a great education.

Consequently, the Company does not guarantee success, income, or savings whether explicit or implied and past customer testimonials are only examples of what can be obtained. There are risks associated with this education, and past results do not represent an indication of future success or earnings.

Persons depicted in testimonials have declared the information shared is true and correct.

The written, audio and visual presentations offered may have been edited from their original versions. Some personal and private information has been removed to protect client and consultant privacy.
